WASHINGTON'S BIRTHDAY CELEBRATION.

The two hundredth anniversary of the birth of George Washington to be celebrated at the national capital in 1932 will be "the greatest celebration thus far known in history—the most ambitious celebration ever undertaken in honor of an individual."

The affair is being planned under the auspices of the Federal Government. It is in charge of a commission, the membership of which includes prominent government officials and men and women widely known in private life. They realize that celebrations of various kinds are "old stories" to Washington City, which has been witnessing events of national and international importance since the seat of government was first moved there in 1800.

The commission is convinced that this 1932 affair is going to be something entirely different from all the others. While the principal national programs are to occur there, that city will be the point from which the series of celebrations will radiate to every part of this country and many foreign countries.

It is to cover more territory—with Washington as its center—than any former celebration. It is to last longer. It is to be on a grander scale. It is to bring more visitors to Washington during the period of 10 months in which the official celebrations will be held. It will arouse more deep and lasting sentiment—practical and especially, spiritual—than anything of the kind that has gone before it there or elsewhere during the world's history. Those are some of the forecasts.

"It is right," said Senator Fess, discussing the matter informally with a press representative a day or two since, "that there should be such an observance of the two hundredth anniversary of the birth of George Washington, whose life and achievements have meant so much to the people of the whole world. Our task is now to make the people of this Nation understand what a tremendous thing this Washington bicentennial is going to be. It will be something to remember and look back upon so long as any person shall live to remember it."

SEEMINGLY A FORGOTTEN VIRTUE.

Governor Bilbo is "bone dry" himself, believes in prohibition and favors enforcement of the Volstead act, yet he keeps on pardoning convicted violators of the liquor laws. Doesn't seem like his profession of "dryness" jibes with his exercise of the pardoning power. But you know that consistency is a forgotten virtue with present day politicians—and Theodore is certainly a politician.

Next Sunday will be a good Sunday to go to church—there will be room for you.—Exchange. And also on all future Sundays.

According to the last census reports there are 11,000,000 people living within a radius of 40 miles of the city hall of New York City.

Psychologists tell girls to show the best side of their dispositions; they might as well, they show everything else.—Yazoo Sentinel. The girls of your town may, but our's don't although some of them come pretty near to it.

Wearing a Bilbo or an anti-Bilbo collar isn't going to get any man into a political job in Mississippi hereafter—a fact that should be recognized by the aspirants for every office from governor down to constable.

Steve Dotson, a Sunflower county negro, sentenced to be hanged for killing his wife, took an appeal to the supreme court, but before that tribunal had time to pass on his case Steve died in his jail cell.

Texas Democrats, and also the Democrats of North Carolina, have nominated—and will elect—millionaire business men as governors. They were "thumbs down" on professional politicians and both States will profit by the change.

The moving picture world lost its greatest and most popular actor when death claimed Lon Chaney a few days since. He will be succeeded by a lot of imitators but not one of them can ever attain the fame he enjoyed and to which he was rightfully entitled.

Congressman Ross Collins defeated his opponent in the Fifth district by an overwhelming majority. He carried every county in the district. Evidently the voters up there took no stock in the charge made against Collins that he was lukewarm in his support of the Democratic ticket in 1928.

A Michigan court has tried and sentenced a murderer in less than 12 hours. If that process were generally followed with murderers, it would make murdering a risky business, and much discourage the practice of it.—Mobile Register.

There isn't any doubt that speedy trial and conviction in murder cases would prove a deterrent, but before that can come about abolish legal technicalities and get rid of the unprincipled and sharp criminal lawyers who do not hesitate to do any and every thing they can to thwart conviction in such cases.

MISSISSIPPI NEEDS.

WHAT Mississippi needs most of all in every State, district, county and municipal office are men who have made a success in the management of their own private affairs as well as in the business world—men of proven high character and worth. Our State has been cursed in recent years by the election of officials, all down the line who have proven themselves unworthy of the honors bestowed upon them. But the day when the professional politicians and demagogues, who have appealed to the passions and prejudices of our people is about ended if we read the signs of the time aright, and we believe there is promise of a great future in store for Mississippi when every official crook, grafter and scoundrel is booted out of office. Our State has made no material progress during the past decade, while every other Southern commonwealth has been going forward by leaps and bounds. Capital has flowed into them from other sections of the country. Their waste places have been developed and made to produce additional wealth. The smoke stacks of mills and factories for the manufacture of cotton, wool, wood and other raw materials are to be seen in every locality while the coming of capital and industries has met little encouragement in Mississippi.

On the contrary laws have been enacted by our legislature which discourage all manner of investment of foreign capital within the borders of our State. The policy pursued by our lawmakers has been detrimental to the best interests of all our people, and they now realize the time is near at hand for a thorough housecleaning. With the rottenness, graft, scandal and corruption in high official circles which has been exposed in the recent past the honest and patriotic electorate of the State is determined to rid the commonwealth of every public official against whom there is even a suspicion of having participated in any of the wrong-doing.

KING GEORGE'S CODE.

We are told in the papers that framed and hanging on the wall of the British sovereign's bedroom is the following code:

"Teach me to be obedient to the rules of the game.

"Teach me to distinguish between sentiment and sentimentality, admiring the one and despising the other.

"Teach me neither to proffer nor to receive cheap praise.

"If I am called upon to suffer, let me be like a well-bred beast that goes away to suffer in silence.

"Teach me to win; if I may not, teach me to be a good loser.

"Teach me neither to cry for the moon nor cry over spilled milk."

There has appeared more or less criticism of the code, but The Echo has naught to say concerning it except to express the opinion that the world would be better off if such a code was religiously adhered to by every living man and woman.

FOR REAL PROSPERITY.

As long as millions of dollars are sent from Mississippi every year to pay for feed and food-stuffs which could be produced in the State our people will never know what real prosperity is. Take for instance the more than \$19,000,000 that went out last year to pay for flour alone, every cent of which could and should have been kept here as it has been demonstrated time and again that the average yield of wheat per acre in Mississippi is far greater than the average yield in the mid-West. When will our people wake up to the fact that their State possesses infinitely more natural advantages than any other section of this great country and that there is no need of their paying tribute to and enriching the agriculturists and manufacturers of other States?

MISSISSIPPI FACTIONALISM.

It is unthinkable to believe that factionalism in Mississippi will exist after January 1, 1932. The injury and harm wrought during the past few years is realized by every citizen who has the good of the State at heart, and they want no more of it, and the candidates who are or would appeal to the passions and prejudices of voters will find they are barking on a cold trail. There are some good and patriotic men in each faction, but they now know that they have been misled and imposed upon by leaders in both camps. They are going to cast their votes in the coming State election for those candidates who have records for character, honesty and fitness to fill the positions to which they aspire.

PROGRESS OF AVIATION.

It was just eighteen years ago that an aviator made the flight from Jacksonville, Florida, to San Francisco, California, in 181 days. It was considered a wonderful feat and accounts of it occupied front page positions in the daily press. Recently Capt. Hawks made the trip from the Atlantic to the Pacific in twelve hours. His feat just demonstrates the marvelous development and stride which has taken place in aviation in a few brief years. With all the improvement being made in airplane motors we can confidently look for even Hawkes' record being broken at any time.

MILLIONS WE ARE LOSING.

From one of Arthur Brisbane's contributions to the daily press we learn that income taxes and other internal revenue receipts are up \$101,000,000, in spite of a one per cent income tax reduction that has been in effect for six months. Also that inheritance taxes paid Uncle Sam \$64,760,625, and tobacco, chiefly cigarettes, provided \$450,339,060. He then remarks: "Imagine how prosperous Uncle Sam would be, if the people that want beer could get it, paying him several hundred millions a year, for the privilege, instead of giving millions to bootlegging and racketeering in return for bad whiskey."

LOCAL SIDELIGHTS

UNUSUAL INTEREST IN CHAMBER OF COMMERCE.

It is refreshing to all lovers of civic and other enterprise and well-being to learn of the general and intense interest manifested in the Bay St. Louis Chamber of Commerce. It is no secret, the Bay St. Louis Chamber of Commerce of late has added many new names to its membership roll and many are paying dues promptly and in a manner that is indicative of renewed interest.

Bay St. Louis Chamber of Commerce is the central point or the clearing house for all united civic activities. Without unified action it is accepted one can accomplish nothing. And numbers united carry more pressure and mean ultimate result. George R. Rea as president is giving the office his personal attention and benefit of years of experience in business. Mrs. Marie-louise Juden is co-operating and helping to foster by her work all that the Chamber of Commerce stands for.

The assertion is ventured, Bay St. Louis has the liveliest Chamber of Commerce on the Coast.

HOPES L. & N. R. R. WILL TRANSFER OFFICE OF SUPT.

While no authoritative statement or semi-official utterance to the effect has been made, the idea is current that the Louisville and Nashville will ultimately move the office of division superintendent from New Orleans to Bay St. Louis. This rumor is predicted on the fact that of removal of auditing divisional offices from Bay St. Louis and from a building which in part was specially designed for such use. These spacious and splendidly-equipped offices will be vacant and it does look as if these will, from a standpoint of economy, have to be used for other purpose.

It is pointed out the railroad company is renting such offices in New Orleans and the fact resolves it would be a saving to move into its own place and especially since such offices located in Bay St. Louis would be practicable.

Such a discussion was heard at the Chamber of Commerce Tuesday night and it was in all seriousness presented. The source from which comes the suggestion is versed on L. & N. subjects, of course, to a certain extent.

INN-BY-SEA LINKS NOW OPEN TO PUBLIC.

Heretofore a number of friends, acquaintances have been privileged to play golf on the mashie course at Inn-by-the-Sea in return for an expression of thank you or some other indication of appreciation. Mr. Bacon, the owner-manager, has been quite generous in this instance. While the course was built for guests of the hotel only, many from Pass Christian, Bay St. Louis and possibly other nearby points have enjoyed this hospitality. But one hesitated to play repeatedly for fear of imposing.

Now a nominal charge green fee of twenty-five cents has been inaugurated and players are better satisfied. The fee is small. It will mean no money for the management but will help the expense of keeping up the course. The charge is welcome and habits will feel better, enjoy the game with a better feeling of satisfaction and return often. As was said in this column last week, there is nothing free. We must finally pay. It is the law of compensation and none can expect something for nothing.

PASS CHRISTIAN ISLES LINKS PROJECT FAILS.

The concerted effort of business men of Pass Christian, assisted by Bay St. Louis, to organize a club to reclaim the 18-hole golf course at Pass Christian Isle sub-division from disuse and sea of weeds, has been relinquished. It was planned to have a membership of \$25.00 initiation fee and \$5.00 per month dues. Many checks for the twenty-five had been given, held in escrow, but it was found it would take several times the amount subscribed to put the project over. Messrs. Barksdale, Lang, Robinson, Terrell, Generelly, Mayor Spence, Adams, and others who headed the project spared no effort in the attempt to put the project over.

A Gulfport soft drink establishment perpetrates this: "We do not know where Ma is but we have Pop on ice."

The old colored woman back of Pass Christian some years ago advertised her candy with this: "Pure Hoe-Made Candy."

An inconsistency: We clamor for more roads, paved streets and highways and improvements galore and while gesticulating for these with one hand the other is clenched and we cry "Down with Taxes!"

The most ardent fisherman has the least fondness for fish. He loves the sport and goes into it for all it carries. Only too often cheaper to buy it.

Labor Day, from personal observation, has resolved itself into a day for picnic pastimes, frivolities and general holiday for fun. A day for general relaxation. A day when the cook and yardboy are given a day off with pay and fail to show up the next morning.

The dignity or majesty of labor has been lost sight of. We live in an age of jazz and we jazz Labor Day just as any other of the many holidays with which the calendar is now dotted. Calendar manufacturers have quit printing holiday figures in red. More or less all days are holidays. Possibly more people get more out of life. Recklessness means less concern and, possibly, we might live longer.

Good Will Makes Better Railroads

A Message from
L. A. Downs,
President,
Illinois Central System.

Dependable for 79 Years

Many great improvements have been effected in railroading in the last generation. One of the greatest of these is in the relations of the railroads with the public.

Every mature person today can remember when railroads were viewed and treated with suspicion, distrust and open hostility. It seemed then to be the prevailing idea that they must be held in restraint. Regulation developed into strangulation.

All that is changed now. The prevailing attitude toward the railroads is one of fairness based upon good will. As a result the railroads are better servants of the public. The splendid record which they have made in the last decade has been due in no small part to this enlightened attitude.

Good will has proved its value to the railroads and to the public. It deserves to be continued. To its continuance our railroad with the co-operation of its many friends, hopes to contribute.

Constructive criticism and suggestions are invited.

Coast Stars Nine To Play Pineville at Pineville This Sunday

Even though the losers in the last two games played the Coast Stars are confident of a victory over the Pineville team this coming Sunday. The game will be played on the Pineville baseball grounds. The Stars have been playing real ball and the double defeat will only make them play harder. A number of admirers of the local team will journey to Pineville with the team to witness the game.

The Coast Stars lost Sunday to the Gulfport Pirates by a score of 10-6. Schoonmaker on the mound for the Stars allowed the Pirates only three hits, but his team mates failed him and made seven miscues. The Stars collected 10 hits off of three pitchers for the Pirates.

The Coast Stars lost Labor Day to the Broadmoor Giants in a hard fought battle the score being 5-4.

J. Collier starting hurler for the Stars was very wild and walked seven men and hit one. Schoonmaker relieved him in the fifth inning and held the visitors scoreless until the 7th inning when two hits accounted for two runs.

Summary for Labor Day's game: 2-base hits—D. Maurigi, J. Bontemps. 3-base hits—G. Maurigi, Smith.

Innings pitched by J. Collier 5, with 3 hits and 3 runs; by Schoonmaker 4 with 2 hits and 2 runs; by West 3 with 10 hits and four runs.

FORMER RESIDENT OF BAY DIES AT MOBILE; BURIED BAY ST. LOUIS

Body of Mrs. Mary Elizabeth Sherges Laid Away at Cedar Rest Cemetery.

Mary Elizabeth Sherges, native of Mississippi and a resident of Mobile for the past 23 years, died at the residence of her daughter, Mrs. W. E. Powell, 356 South Conception street, Thursday evening at 6:20 o'clock.

She is survived by one daughter, Mrs. W. E. Powell, Sr., of Mobile; one son, August Sherges, of Mobile; two sisters, Mrs. F. Banderet, Sr., of Bay St. Louis, Miss., and Mrs. James Mitchell, of Logtown, Miss.; two brothers, Joseph Capdepon, and Leon B. Capdepon, the latter former mayor of the city and at present engaged in business; one grandchild, W. E. Powell, Jr., and other relatives. The funeral will be held at 10 o'clock on Friday morning at Bay St. Louis where interment took place Saturday morning at Cedar Rest Cemetery, in the family burial place.

Rev. Father Fahey officiated at the ceremony which was attended by many. Many floral offerings accompanied the body from Mobile, one strikingly beautiful and of size. It came from the Railroad Conductors' organization, of which the son of the deceased is a member.

Mrs. Sherges was well-known in this city, where she resided for the major part of her life. Bay St. Louis was always regarded with the most tender affection. The death of a grown-up son some few years back was a severe blow, a shock from which she never recovered. The surviving son, August, with her daughter, was a great solace to her, his attention and constant solicitation a living tribute of son to mother.

To cancel warrant in the sum of \$100.00 issued to the said Southern Paving Construction Company, and that lien thereof be issue to the said Southern Paving Construction Company a warrant in the sum of \$369.24 payable out of the Road Protection Fund.

Supervisors Wheat, Moran and Murphy, Voting aye, absent and not voting.

Supervisor Goss, absent and not voting.

Supervisor Cue, voting nay, and giving as his reasons therefor: I voted no on this proposition because it is my opinion that the county does not owe the money when the engineer suggested that the work should be done for \$1500.00; not withstanding this estimate we discussed the figure of \$100.00 as the outside limit. The Southern Paving Company, through Mr. Hays, agreed with us that the work could be done for this amount. However, later on, Mr. Hays who undertook to do the work for the Southern Paving Construction Company stated that the work could not be done for less than \$2500.00. He was told in open meeting that he could go on and do the work but by no means must he expend over \$3,000.00. While this was not put on the minutes, in open

meeting it was agreed that the work could be done for that amount. When the work was concluded Mr. Hays presented a bill for \$369.24. In this item was embraced interest on money paid by Mr. Hays for payroll, etc. This item the Board turned down and at the meeting we voted the sum of \$300.00 for doing the work. This was passed unanimously by the Board and warrant issued accordingly.

Later Mr. Hays came before this Board and asked for \$369.24 more. The county refused to pay that but did in view of the fact that the Board felt there might have been some misunderstanding, agreed to allow him \$100.00 more, and warrant was issued therefore all of the members voting "aye."

Now the Southern Paving Company cashed the \$300.00 warrant but not having cashed the \$100.00, warrant comes in and asks for this payment.

It is my opinion in the first place that the money is not owed for the reason above given, and

Secondly I am informed by reputable lawyers that when Mr. Hays or the Southern Paving Company accepted the \$300.00 and cashed the warrant therefor, they foreclosed themselves from any further demand themselves from any further amount in this Board, and I believe it is illegal to allow any further amount for the work.

I can't overlook adding that the same amount of work for which this additional sum is allowed was done by another part of the wall by Mr. Banderet for the total sum of \$1800.00.

Whereas the Board of Supervisors of Hancock County, issued warrant in the sum of \$350. to F. E. Johnson, dated July 4th, 1918 and payable out of the Road fund and whereas the said road fund has all been placed in the road and bridge fund, be it therefore ordered that warrant No. 2077 of the Road Fund, payable to F. E. Johnson be and the same is hereby cancelled, and that the clerk of this Board be and he is hereby directed to issue warrant in the sum of \$3.50 in lieu of the said warrant No. 2077, to the said F. E. Johnson payable out of the Road and Bridge Fund.

The Board having taken up the matter of objections to the real and personal assessments for the year 1930 and same not being concluded, it is therefore ordered that the same be continued until Saturday morning, August 16th 1930, at 9 o'clock A. M.

Be it ordered by the Board that the Board adjourn until Saturday morning, August 16th, 1930, at 9 o'clock A. M.

Friday morning, August 15th, 1930, at 9 o'clock A. M. Board met pursuant to adjournment, present as on yesterday.

Whereas J. D. Lee, J. J. Lee and N. R. Mitchell, have built 9.44 miles of fence along Pearl River as per contract given by the Board of Supervisors and the said State Live Stock Sanitary Board, and whereas the said contract is completed and the Board having examined the said fence and the same having been built according to plans and specifications and according to contract, the same is hereby approved and accepted.

The clerk of this Board, directed to issue warrant for said work out of the General County Fund in the sum of \$2155.28 upon receipt from the State Live Stock Sanitary Board of the sum of \$2155.28, and whereas it became necessary to build 9.78 miles of fence to complete said work at a cost of \$943.11, the said work is also approved and accepted and the clerk of this Board is directed to issue warrant in the sum of \$943.11 in payment for said work.

Whereas the Southern Paving Construction Company at a former meeting of this Board was allowed the sum of \$100.00 as full and final payment of fence account work on Pearl River and whereas the said Southern Paving Construction Company has refused to accept the said payment, and whereas the Road Protection Commission has recommended to this Board the payment of \$369.24 in full and final payment and whereas the Board has reconsidered the said matter and being of the opinion that the said Southern Paving Construction Company should be paid the sum of \$369.24, be it therefore ordered that the former order of this Board allowing the sum of \$100.00 be and the same is hereby rescinded, and the clerk of this Board be and he is hereby directed

to cancel warrant in the sum of \$100.00 issued to the said Southern Paving Construction Company, and that lien thereof be issue to the said Southern Paving Construction Company a warrant in the sum of \$369.24 payable out of the Road Protection Fund.

Supervisors Wheat, Moran and Murphy, Voting aye, absent and not voting.

Supervisor Goss, absent and not voting.

Supervisor Cue, voting nay, and giving as his reasons therefor: I voted no on this proposition because it is my opinion that the county does not owe the money when the engineer suggested that the work should be done for \$1500.00; not withstanding this estimate we discussed the figure of \$100.00 as the outside limit. The Southern Paving Company, through Mr. Hays, agreed with us that the work could be done for this amount. However, later on, Mr. Hays who undertook to do the work for the Southern Paving Construction Company stated that the work could not be done for less than \$2500.00. He was told in open meeting that he could go on and do the work but by no means must he expend over \$3,000.00. While this was not put on the minutes, in open

meeting it was agreed that the work could be done for that amount. When the work was concluded Mr. Hays presented a bill for \$369.24. In this item was embraced interest on money paid by Mr. Hays for payroll, etc. This item the Board turned down and at the meeting we voted the sum of \$300.00 for doing the work. This was passed unanimously by the Board and warrant issued accordingly.

Later Mr. Hays came before this Board and asked for \$369.24 more. The county refused to pay that but did in view of the fact that the Board felt there might have been some misunderstanding, agreed to allow him \$100.00 more, and warrant was issued therefore all of the members voting "aye."

Now the Southern Paving Company cashed the \$300.00 warrant but not having cashed the \$100.00, warrant comes in and asks for this payment.

It is my opinion in the first place that the money is not owed for the reason above given, and

Secondly I am informed by reputable lawyers that when Mr. Hays or the Southern Paving Company accepted the \$300.00 and cashed the warrant therefor, they foreclosed themselves from any further demand themselves from any further amount in this Board, and I believe it is illegal to allow any further amount for the work.

I can't overlook adding that the same amount of work for which this additional sum is allowed was done by another part of the wall by Mr. Banderet for the total sum of \$1800.00.

Whereas the Board of Supervisors of Hancock County, issued warrant in the sum of \$350. to F. E. Johnson, dated July 4th, 1918 and payable out of the Road fund and whereas the said road fund has all been placed in the road and bridge fund, be it therefore ordered that warrant No. 2077 of the Road Fund, payable to F. E. Johnson be and the same is hereby cancelled, and that the clerk of this Board be and he is hereby directed to issue warrant in the sum of \$3.50 in lieu of the said warrant No. 2077, to the said F. E. Johnson payable out of the Road and Bridge Fund.

The Board having taken up the matter of objections to the real and personal assessments for the year 1930 and same not being concluded, it is therefore ordered that the same be continued until Saturday morning, August 16th 1930, at 9 o'clock A. M.

FORMER RESIDENT OF BAY DIES AT MOBILE; BURIED BAY ST. LOUIS

Body of Mrs. Mary Elizabeth Sherges Laid Away at Cedar Rest Cemetery.

Mary Elizabeth Sherges, native of Mississippi and a resident of Mobile for the past 23 years, died at the residence of her daughter, Mrs. W. E. Powell, 356 South Conception street, Thursday evening at 6:20 o'clock.

She is survived by one daughter, Mrs. W. E. Powell, Sr., of Mobile; one son, August Sherges, of Mobile; two sisters, Mrs. F. Banderet, Sr., of Bay St. Louis, Miss., and Mrs. James Mitchell, of Logtown, Miss.; two brothers, Joseph Capdepon, and Leon B. Capdepon, the latter former mayor of the city and at present engaged in business; one grandchild, W. E. Powell, Jr., and other relatives. The funeral will be held at 10 o'clock on Friday morning at Bay St. Louis where interment took place Saturday morning at Cedar Rest Cemetery, in the family burial place.

Rev. Father Fahey officiated at the ceremony which was attended by many. Many floral offerings accompanied the body from Mobile, one strikingly beautiful and of size. It came from the Railroad Conductors' organization, of which the son of the deceased is a member.

Mrs. Sherges was well-known in this city, where she resided for the major part of her life. Bay St. Louis was always regarded with the most tender affection. The death of a grown-up son some few years back was a severe blow, a shock from which she never recovered. The surviving son, August, with her daughter, was a great solace to her, his attention and constant solicitation a living tribute of son to mother.

To cancel warrant in the sum of \$100.00 issued to the said Southern Paving Construction Company, and that lien thereof be issue to the said Southern Paving Construction Company a warrant in the sum of \$369.24 payable out of the Road Protection Fund.

"You are charged," said the judge, "with beating up this government inspector. What have you to say?" "Nothing," replied the grocer. "I am guilty. I lost my head. HAPPY YOUNG COUPLE JOINED IN BOND OF WEDLOCK WEDNESDAY

Nuptial Mass Marks Marriage Ceremony of Mr. Geo. Boudin and Miss Louise Fayard.

An interesting and pretty wedding was witnessed by many friends Wednesday morning at the Church of Our Lady of the Gulf, Rev. Father A. J. Gmelch officiating.

The contracting parties were Geo. Boudin, son of Mr. and Mrs. Peter Boudin, and Miss Louise Fayard, daughter of Mr. and the Late Mrs. Evariste Fayard, both of Bay St. Louis.

The ceremony was heightened with the impressiveness and solemnity of the nuptial mass ceremony, which took place at 6 o'clock.

Attired in white, with hat and gloves to match, the bride's beauty was enhanced. She was attended by Miss Julia Boudin, sister of the groom, as maid of honor, while the handsome groom had Mr. Peter F. Fayard, the bride's brother, as best man.

Caring tones of the violin by Miss Louise Armstrong added to the organ music during the ceremony, Mrs. Thomas Quintini as organist.

Following the ceremony a breakfast to the bridal party was served at the home of Mr. and Mrs. Boudin in Third street, to which only members of the families of the contracting parties were present.

Numerous presents from friends told of the popularity of the young couple.

Following breakfast, Mr. and Mrs. Boudin left by auto for Mobile where they plan to spend several days before returning to Bay St. Louis where they will reside in future, making their home at the residence of the bride's father, corner R. R. avenue and Toule street.

The groom is an exemplary young man, well-known and deserving of the fair young lady's hand and whose heart has been safely entrusted to his keeping.

They have the best wishes and congratulations of many friends.

BRIDAL SHOWER FOR

MISS LOUISE FAYARD

The regular meeting of Pine Grove Woodmen Circle last Tuesday evening at Woodmen Hall proved a double occasion for at the same time and place a miscellaneous shower was given to honor Miss Louise Fayard, whose marriage to Mr. George Boudin, of this city, took place Wednesday morning.

There were many presents. These were daintily tied and presented one by one by Mrs. Marie Monti, and each package was opened to the view and admiration of the guests, each seemingly prettier than the other. It was quite an array of gifts and testified to the esteem in which Miss Fayard is held by her friends and sister members of the Circle.

Following this succession of surprises and exclamations, refreshments were served and an unforgettable evening by those present resulted.

There's no use growing when there's work to be done. It'll never be finished unless it's begun.—Go to it.

RETURNS HOME FROM TRIP TO TROPICAL LANDS

Mrs. Kenneth Pepperdene Home From Trip to Havana and Panama Canal Zone.

Mrs. Kenneth W. Pepperdene, accompanied by her son, Jack, and daughter, returned home Monday night from a glorious trip to the tropics which covered a period of over two weeks, making the trip to and fro on the palatial steamers of the United Fruit Company.

Mrs. Pepperdene says the two days spent at Havana, Cuba, were days never to be forgotten. There was so much to see; numerous attractions and entertainment. Every fleeting moment meant so much.

A visit to the club where the the national sport of jaijai is seen at its best, with society of men and women of that pure Castille type, proud and patrician-like, in attendance. Then the Spanish Club, with its magnificent building, and a registry of 68,000 members. Here the Latin entertainment, with all that atmosphere the word implies, is seen to advantage.

At Colon, at the Strangers Club, Saturday night, there was a magnificent ball given under the auspices of the Navy and Army Club, a most exclusive affair every week-end. To this Mrs. Pepperdene and party attended. Different places were visited, Balboa on the Pacific proved interesting. At Port Barrios many native scenes interested and the trip via Creta river was of interest. Here on each side of the river were embankments as high as 800 feet, with luxuriant vegetation and gorgeous

blossoms. The trip led to an inland lake 72 miles wide.

At Barrios the party attended a picture theater "The Patent Leather Kid" was the attraction, and between sections of the picture, Mrs. Pepperdene said, people from the audience would get up and enjoy refreshment, while others walked around and visited. The theater was enclosed. Many seats were comfortable rocking chairs.

At Panama City many of the natives in their place of habitation were visited. The houses built in one long row, as it were, showed where in one habitat of the kind 69 families resided. In addition to this the party made many side trips to the interior and visited natives hardly to be classed civilized, so primitive were their mode of living and their way of doing noted.

The Panama Canal, said Mrs. Pepperdene, is always a sight in itself worth seeing, and a trip to both ends of the Pacific and Atlantic waters is an outstanding feature of the trip. There was much social life, going and coming, said Mrs. Pepperdene, and the trip on the steamers of the United Fruit Company is by no means the least of a "glorious trip of the tropics." The sea was like a placid mirror and no one on board felt the least discomfort either going or coming.

After the lapse of thirty-three years the bodies of Maj. S. A. Andre and two of his ill-fated companions lost in an attempted balloon flight over the North Pole, have been found. On White Island far up in the Arctic Circle. A diary of the explorer's experiences was found and in a little while the world will be told of the heroic flight made by the brave Norwegian's travels over trackless waste of snow and ice in his hopeless task of reaching civilization, after the wreck of his balloon.

Early Fall, Season of
Real Fishing, Is At Hand
With Thrills Ahead

This section of Hancock county and the coast has always enjoyed the reputation of being good fishing grounds, as the term goes. It is true all kinds of fish bite the year 'round, more so, however, during the spring and fall season.

Just now the rivers and tributary streams of Hancock county, adjacent to Bay St. Louis are alive with fresh water fish, to say nothing of the denizens of the bay and sound. Red fish and speckled beauties, abundant and of weight, respond to the angler's rod and bait. It seems a pity that many of our summer visitors who come to enjoy the fishing as well as other attractions leave just about the time real fish are really beginning to bite.

A trip any day to Jordan river waters and the lagoon adjacent offers its own reward. The stranger has no trouble to procure boats, bait and all necessary paraphernalia. The early fall season is at hand. Fish plentiful, so reported, and there is abundant sport and thrills galore ahead for the amateur and other fishermen.

If you don't believe it, dear reader, ask Joe Mauffray and others hereabouts.

FOREST SERVICE NEWS

Fourteen-year-old second-growth loblolly pine on old clearing. Average diameter 8 inches, height 25-30 feet. Noxzese County.

County Wide Forest Fire Protection Offered

State Forest Service Will Help Organize and Pay Half of Cost.

County-wide forest fire protection is now available to Mississippi counties through a cooperative plan recently approved by the State Forestry Commission. Under the terms of the plan, the Mississippi Forest Service will expend for forest protection in a county an amount equal to all the expenditures made by the Board of Supervisors for the same purpose. The Commission feels that this method of protection will do much to wipe out the state's annual forest fire loss estimated at between thirty and forty million dollars.

The plan was devised following the passage of a bill introduced in the last legislature by Senator J. H. Stone of Attala County. The bill was written after a motor trip from Tupelo to Jackson, which Senator Stone said he noticed many forest fires burning along the highway. Most of the fires were small and could have been easily controlled, but no one was responsible for directing the work. Consequently, they continued to burn, and the loss of life and property was great. Upon arrival in Jackson he wrote the bill which provides for the appointment by the sheriff, upon authorization of the board of supervisors, of a deputy forest ranger to protect the county's forests. As a further aid, the Mississippi Forest Service plan provides that the work in a county will be under the direction of a local advisory board composed of the sheriff, a forest service representative, a member of the board of supervisors, and an editor, and more interested landowners of the county. Expenditures made by the county for work approved by this board will be met by equal expenditures by the Mississippi Forest Service, which plans to spend its funds largely for firefighting equipment, educational material.

According to the State Forester, fire protection is of the greatest importance in solving the problem of land use in Mississippi. He says that only about one-third of the total land area of the state is now utilized for agriculture, towns, roads, and similar uses. The remaining two-thirds of the state now supports our forest products industry, the leading manufacturing industry in the state, with products valued at about 120 million dollars per year. Present indications are that at least half of the total area of the state will not be needed for other purposes than timber growing for at least another fifty years. This is ample time to grow another crop of timber which will continue the forest products industry, provide employment for thousands of local people and furnish local markets for agricultural products. The forester says that the future for timber growing looks very good in Mississippi, and that the only major setback to it is being under a new crop and that it is about the only soil crop that is not mentioned at one time or another in acreage discussions.

"Labor Day" Week-
End on Gulf Coast
Grows in Popularity

Judging from increased number of week-end visitors to the Mississippi Gulf Coast, and particularly to the Bay-Waveland district, Labor Day Week-end is growing in popularity, seemingly becoming an institution with everybody who can by some way or another get away from home. Then get back on the job, either in the home or office, and with self-complacency, feel the summer season of outings is at an end and the winter term of work and school has officially begun.

This week-end to the Coast, judging from automobiles crossing the Old Spanish Trail out from New Orleans, exceeded all figures and precedents. This was the first year of free bridges at Chef and Ripoles and whether this was an additional inducement to journey to the coast on this occasion is not known.

Where do all the autos and people come from, some on asks. "Search me," replied the other fellow with spirit of witicism. It is observed and confirmed by knowing ones, that the summer season of the coast now resolves itself into a period of practically eight active weeks—from July Fourth to Labor Day.

Be it this or that, the fact remains that the Mississippi Gulf Coast grows into popularity each succeeding season and the thousands who journey and linger here are living, breathing, walking advertisements. They come, stay and unfailingly return.

This was composed of Messrs. Ben Hille, C. J. Gordon, Claude Bourgeois and Si L. Engman. Arthur Scalfie and W. B. Cook were inimitable. Their work pervaded throughout the evening and never dragged nor dulled.

The "Bridge of Sighs," pantomime recitation, W. B. Cook reciting was participated in by Misses Hazel Kerigson, Judith Mauffray, Messrs Lucien Gex, C. A. Gordon, Herman Cassanova and E. K. Nathan, all equal to most exacting parts.

Messrs. Fred Fayard, H. Laudon, Wm. Wade, A. A. Williams, M. O. Blanchard, W. D. Hays, along with the others were an integral part of the minstrel performance. The jokes were new and well gotten off.

In conclusion we feel to Mr. Laurent Dickson who devoted so much energy and direction in the production as a whole, and who handled the business end of the benefit, goes the lion's share of credit. Indefatigably he worked without cessation. His best reward is the satisfaction of knowing the benefit went over big and was productive of good.

So much for the Legion boys of the Clement R. Bontemps Post of Bay St. Louis and Hancock county and to the members of the Graham Post at Gulfport, who liberally assisted, and to the Drum and Bugle corps who journeyed from Gulfport.

"HIPPO" PHILLIPS
NAMED HEAD COACH
FOR BAY HI SCHOOL

Bay St. Louisan Succeeds
Fred Corley, Resigned—
Selection Gives Satisfaction.

Milton H. "Hippo" Phillips was named head coach of athletics at Bay St. Louis High school, according to an announcement by Superintendent of Schools S. J. Ingram, following the recent resignation of Fred Corley, former Mississippi A. & M. College star, to accept a position with a sporting goods company.

Phillips, well known in sport circles on the Coast for his performance a few years ago at the St. Stanislaus college in Bay St. Louis, and last year as assistant coach at the Gulf Coast Military Academy, started football practice for the Bay High last Tuesday at a training site on Jordan river near Kiln. The candidates will remain at the camp one week, and return ready for school opening next Monday, September 8.

Having won the Gulf Coast Regional Class B championship for two successive years, the Bay High hopes of successfully defending the crown against the challenge of six other Class B squads will rest on the shoulders of a team made up mostly of new players.

Phillips will have only seven regular players around which to build his team, four of the number being backfield men. The front wall lost nearly all its regulars last spring by graduation, while the backfield lost the services of Captain-elect Gaspar Maurigi, touted as one of the best ball transporters in the Class B division.

Bay St. Louis will play every member of Class B in their defense of the title and also make an invasion to Pascagoula and one to New Orleans to play Holy Cross. A game is pending with Slidell also, it was said.

Nine games will appear on the Bay St. Louis schedule, it was said, and the team will not play a single contest on the home field. Among the teams to be on the chart will be Mississippi City, which is expected to be one of the strongest contenders for the Class B crown, Moss Point, Lyman, Long Beach, Kiln and Ocean Springs. Bay Hi will open its season September 20 playing at Pascagoula, it was said.

The third straight year that Bay St. Louis has opened its football season by playing the Pascagoula eleven, members of the Class A division of the Gulf Coast Regional Association. The players returning from last year's fold expected to report to Phillips and his associate coach, Edward Mayfield, of Celina, Tenn., are Nolan Taconi, Nolan Ladner, Earl Raymond, Laurent, Middleton, Koch and Erwin.

KNOW MISSISSIPPI BITTER

Ambassadors of good will are traveling on the Know Mississippi Better Train.

Ambassadors of strife are parading the length and breadth of the state.

Dennis Murphree is heading a delegation traveling through other states with outstretched hands of friendship.

Bilbo is at the head of a movement spreading bitterness all over the state.

Mississippi truly is an extraordinary state of extraordinary extremes, and one can never forget that the world hears of the bad as well as the good, and in the past it has heard more of the bad.—Hattiesburg American.

Mississippi politics are warming up a year in advance of the quadrennial primaries, candidates for major state offices and a number of more or less prominent other individuals have been airing their views and indulging their oratorical ability this week at the Neshoba county Fair at Philadelphia, Mississippi. Many have read nothing that indicates that any of the speakers have any constructive ideas for the betterment of Mississippi political conditions. The air is full of charges of shortcomings and misdoings for political opponents, and it is field-day for the "mudslingers." Fayette Chronicle.

BELL TELEPHONE CO.
PLAN EXPANSION FOR
CITY OF JACKSON

Would Put In Dial Plan—
Improvement Necessitated
By Growth of
Capital.

It is conceded Jackson is the fastest-growing city in the country. Growing out of bounds, adding population and many new buildings and dwellings reported within the past two years, the like of which has never been witnessed in the State, now comes a veritable clincher for all of this and added growth and subsequent prosperity.

John C. Hay, state manager for the Bell Company, was a recent visitor to Bay St. Louis, and in company with C. A. Fishburn, visited The Echo, which called proved one of interest. Mr. Hay said it was true that Jackson was growing at a phenomenal rate; that the growth was not ephemeral but of a most solid character and that the immediate future was not promising but positive.

And now comes from Jackson the press dispatches that tell of plans for a \$1,800,000 expansion program in the city of Jackson, by the Southern Bell Telephone Company, embracing a new exchange building, installation of the modern dial system to serve 11,900 telephones and to be completed by the fall of 1932, as unfolded by Mr. Hay, following his return from Atlanta, where he conferred with headquarters officials.

The proposed program and an alternate plan including statistical data pointing to the necessity of an upward revision in rates to take effect only after completion of improvements, were outlined by Mr. Hay in an address before a group of prominent business and professional leaders of the city at the chamber of commerce offices. Coincident with Mr. Hay's delineation of his company's proposals, it became known that the telephone company had purchased three lots on North-west street, ostensibly as a site for the proposed new building.

Approval of the rate advance sought would insure the program getting under way at the earliest possible moment, it was declared, assuring at the time that present rates remain in effect until the fall of 1932.

GAME LAW IS RULED ON
BY ATTORNEY GENERAL

State Licenses Can Be Had
Before Nov. 1—New Law
Not in Effect Now.

In response to a request from G. H. Diggs, game warden of Holmes county, Attorney-General Geo. Mitchell interprets the new game law as follows:

"In my opinion, hunting licenses issued prior to Nov. 1, 1930, must be issued under the provisions of Chapter 178, Laws of 1926, and amendments thereto. You could issue a license as provided for in the code of 1930 prior to November 1930, because such law will not be in effect until said date.

"I further advise you that you would be authorized to issue a State hunting license up to Nov. 1, and that such license will be good for one year from July 1, 1930. All licenses under the present law will be good until the date of the expiration of such license, this is true, even though the provisions of the code of 1930 are different from the present law."

HEAD OF LATE ROVING
COMMITTEE IN PUBLIC
TALK FLAYS CORRUPTION

Sam V. Anderson Reviews Scandal Probe at Leake county
Fair—Urges House Cleaning—Other Speakers Heard.

(John Hudson in Times-Picayune)

Corruption in high office in Mississippi is the responsibility of business and professional men who have "sweetened the political pot with donations and contributions" to be used against clean government, Representative Sam V. Anderson of Greenville, chairman of the House of Representatives roving committee, charged Wednesday.

Chairman Anderson was addressing an audience of several hundred persons attending the Leake County Fair at Carthage, reviewing the scandal probes undertaken by his committee, including the \$80,000 scandal, the Bura Hilborn alleged shortage of \$100,000 in the Rosenwald school fund, and the payment of \$45,000 to Carl Marshall, Bay St. Louis attorney, by the Mississippi Power Company of Gulfport.

"This thing has gone to the point where if the administration goes to its end and is followed by another administration like it, then, verily I believe that the grafters and the crooks will become so thoroughly entrenched that we will have to use extra-legal means used by our granddaddies during reconstruction days to get them out of office," he said.

House-Cleaning Urged.

District Attorney Rich Russell of Mendenhall, candidate for attorney-general, and Major Fred Sullens, editor of the Jackson Daily News, were other speakers. Russell used as his theme the necessity for restoring confidence in government, and Major Sullens, besides bitterly denouncing Judge Paul Johnson of Hattiesburg, anti-Bilboism candidate for governor, urged "thorough house-cleaning" in next year's elections.

Reading the committee record where Marshall received \$80,000 in currency from Warren Brothers and one year earlier had received one check for \$30,000 from the Mississippi Power Company which he cashed and obtained "bills of small denominations, and then headed toward Jackson," Chairman Anderson said: "Carl is not a tax-gatherer but he surely brought in the money." The \$45,000 received by Marshall from the Mississippi Power Company had been for "free legal services rendered."

Chairman Anderson said his committee had been informed by Barney E. Eaton, president of the corporation, "but it is significant that Marshall was retained by Eaton in the same month that Bilbo came into office, and then was carried on a secret payroll known only to Eaton and two trusted employees."

Chairman Anderson assured the crowd that he was not "at present" a candidate for office. But when he saw responsible business men like Eaton paying large sums of money, he then decided that he was going on the stump to acquaint the people with the present status of government, and do what he could to bring about a remedy.

"Your remedy is at the polls next year," he said, but he added that he saw no "Moses" in the list of gubernatorial candidates already announced. Attorney-General George Mitchell was "too forgetful," he said as the crowd tittered in laughter. "He forgot the \$10,000,000 suit against Warren Brothers."

Judge Paul Johnson, the anti-Bilboism candidate, had the chief commendation that he cut-Bilboism; that is, he recommended to me, besides, do not forget that he set South Mississippi back 15 years in fighting tick eradication."

Business and character were not qualifications enough, he continued having reference to the candidacy of Hugh White. "Whoever you elect, you elect a man who is a crook, a cheat, and a liar, and he will be able to see a snake when it creeps up," he said.

Details of the \$80,000 scandal definitely eliminated Chairman Lester C. Franklin of the State Tax Commission and Bilbo faction candidate for governor, he thought. Franklin, because of the scandal, saw 26 senators vote for his conviction and—22 against it. "Of these 22, 18 have been given jobs for themselves or near relatives," he said.

Mentions Two Senators.

The names of two of these senators were brought into the speech. Senator Len-G. North had been made purchasing agent at A. & M. college. Chairman Anderson charged that North had become "a successful and profitable pardon lawyer, recently having been licensed by the Broome board."

[Senator] J. C. Zeller, "who was head of some jerrywater college in the north," said Chairman Anderson, was made vice-chancellor of the chair of philosophy and ethics. "God save the mark! Upon such evil days has fallen Mississippi."

The voters must elect a man "who can cope with that gang of brigands at Jackson, who know his stuff for they will steal his eyeballs out," asserted Chairman Anderson. "You cannot run the government without an executive, and you cannot have a clean government unless you elect an executive you can trust."

Major Sullens Speaks.

Major Sullens lost no time in paying his verbal respects to Judge Paul Johnson, continuing the editorial attack he has launched upon the gubernatorial candidate. Referring to Johnson's assertion that Sullens was fighting him because Johnson had brought a \$100,000 libel suit against Sullens, the editor said: "That was his first lie."

"That libel suit was brought by J. Frank Norris, the Baptist preacher of Fort Worth, because I called him a said-blooded murderer. Johnson muscled himself into the suit."

When the suit came up, Johnson and Norris were not there, because they knew I was going to prove what I had printed.

Johnson Assailed.

"One week has passed since I denounced Paul Johnson as a liar, and he has done nothing about it. The word 'used' to mean something to Southern gentlemen, but whoever calls Judge Paul Johnson a buzzard or a pole-cat, indulges in fulsome flattery."

Judge Johnson, in his campaign speeches, has made fun of Hugh White of Columbia, wealthy candidate for governor, because he has paid \$32,000 for a pure-bred boar for the improvement of the hog industry in Marion county. He has said that a man who would pay that much for a "boar shoot" should not be trusted to have sense enough to be governor.

Here are two stories from widely separated parts: Fred Hammon of Selma, Ala., claims to have caught two trout at the same time with one hook baited with a minnow, the trout weighing five and two pounds respectively. Karl Solhman of Toem, to Sweden, caught a large pike and a fish hawk at one cast of his net, the fish attracting the hawk, which became entangled in the net.

IN SOCIAL CIRCLES (By Our Society Editor)

WANTING of Summer has no effect on the social activities of Bay-Waveland section. On the contrary in addition to the major parties there has been a number of smaller gatherings and informal get-togethers, a list if published too long for this column.

There are yet a number of folks away from Bay St. Louis who add to the local social life. These will be returning home shortly.

The summer in a way has been quiet for parties in the generally accepted term. Extreme warm weather has driven people to the out door pastimes. No big afternoon parties, as in former seasons, were noted. In fact, there has been none of the kind throughout the season.

Fall and winter are very promising for private entertainment and social activities will in no way be lessened.
